Resolution 1 – Amendment to the Constitution

To amend the constitution to insert at the end of Clause 32 'General Meetings - Business' the following new sub-clause: "The company in general meeting may by ordinary resolution express an opinion or request information about the way in which a power of the company partially or exclusively vested in the directors has been or should be exercised. However such a resolution must relate to a material risk as identified by the company and cannot either advocate action that would violate any law or relate to any personal claim or grievance. Such a resolution is advisory only and does not bind the directors or the company."

(Note that an accompanying ordinary resolution seeking transition planning disclosure should also be included on AGL Energy Ltd's Notice of 2019 Annual General Meeting. Shareholders who vote by proxy should be able to lodge a vote on both resolutions.)

Resolution 2 – Transition Planning Disclosure

Shareholders request that the company, in annual reporting from 2020, set out transition plans consistent with the goal of the Paris Agreement to limit global warming to 1.5°C.

Plans should include short-, medium- and long-term targets to reduce scope 1, 2 and 3 greenhouse gas emissions, and strategies to meet these targets, including the elimination of coal power generation by no later than 2030.

This information should describe how the company will manage near-future write-downs from fossil fuel infrastructure, how capital expenditure decisions will align to the goals of the Paris Agreement, and how executive remuneration will incentivise adherence to the transition plans.
